EDUCATION

ABES Engineering College, Ghaziabad, U.P.

B.Tech, Computer Science and Engineering — CGPA: 7.48

Sept. 2021 – July 2025

St. Mary's Sr. Sec. School, Rudrapur, Uttarakhand

CBSE Class 12th — Score: 87.2%

March 2020

St. Mary's Sr. Sec. School, Rudrapur, Uttarakhand

CBSE Class 10th — Score: 81.8%

March 2018

TECHNICAL SKILLS

- **Programming Languages:** C++ (DSA), Python, JavaScript, SQL.
- **Development:** React.js, React Native, Expo, MongoDB, Express.js, Node.js, Spring Boot, GitHub, Bitbucket.

PROFILES

- Solved 500+ LeetCode problems with 85%+ in medium categories. [Link](#)

EXPERIENCE

Software Engineer (Reloy) — [Link](#)

Expo, React Native, Bitbucket, Monorepo

- Developed and maintained multiple white-labeled mobile applications from core products using a configuration-driven architecture.
- Integrated Digio for Aadhaar-based authentication and document workflows, and implemented push notifications, deep linking, WebViews, and WebEngage.
- Leveraged AI-assisted development tools such as Cursor, Claude Code, Codex, and MCP workflows to accelerate UI and feature development from Zeplin designs.
- Contributed to monorepo architecture implementation and built reusable, customizable React Native components to improve code reusability and development efficiency.

SDE Intern — Ramai Healthcare Private Limited

Expo, React Native — [App Link](#)

- App is available on the Play Store to download; currently in the development phase.
- Implemented UI and a RAG pipeline for AI-based prescription generation.
- Used FastAPI for the backend, Expo for the front-end, and OpenAI for the AI pipeline.

PROJECTS

Split Expense — Full Stack: Expo(React-Native) + Node(Express) — [AppLink](#)

- Built a mobile expense tracker using React Native, Expo, and TypeScript, delivering authentication, dashboard, transaction management, and activity tracking features.
- Integrated REST APIs for login, registration, transaction and activity data, with secure token handling, session persistence, and automatic refresh-token based re-authentication.
- Managed scalable client-side state with Zustand, AsyncStorage, and Expo Secure Store to support persistent user sessions and synchronized financial data.
- Implemented push notifications and in-app toast alerts to improve real-time user engagement, feedback, and overall mobile app experience.

Article Summarizer — Summarize Any Article — [Link](#)

- Built a fully functional frontend using React.js, Tailwind CSS, and JavaScript.
- Integrated a search bar where users can paste a link to generate a summary.

POSITION AND RESPONSIBILITY

Volunteer, HUHC Club

- Contributed during the 1st year to educational support for underprivileged children.
- Assumed leadership in planning and executing initiatives to empower and educate marginalized communities.
